*monotypes on mail_art and art_by_mail workshop for
kids and families*

ABOUT

The monotype, in its artistic aspect, allows us to have a singular expression in the imagery created by the fact that they are never faithfully reproduced. mail_art in many cases, if not most, also lives on the uniqueness of each work carried out, stamped, transported, etc.

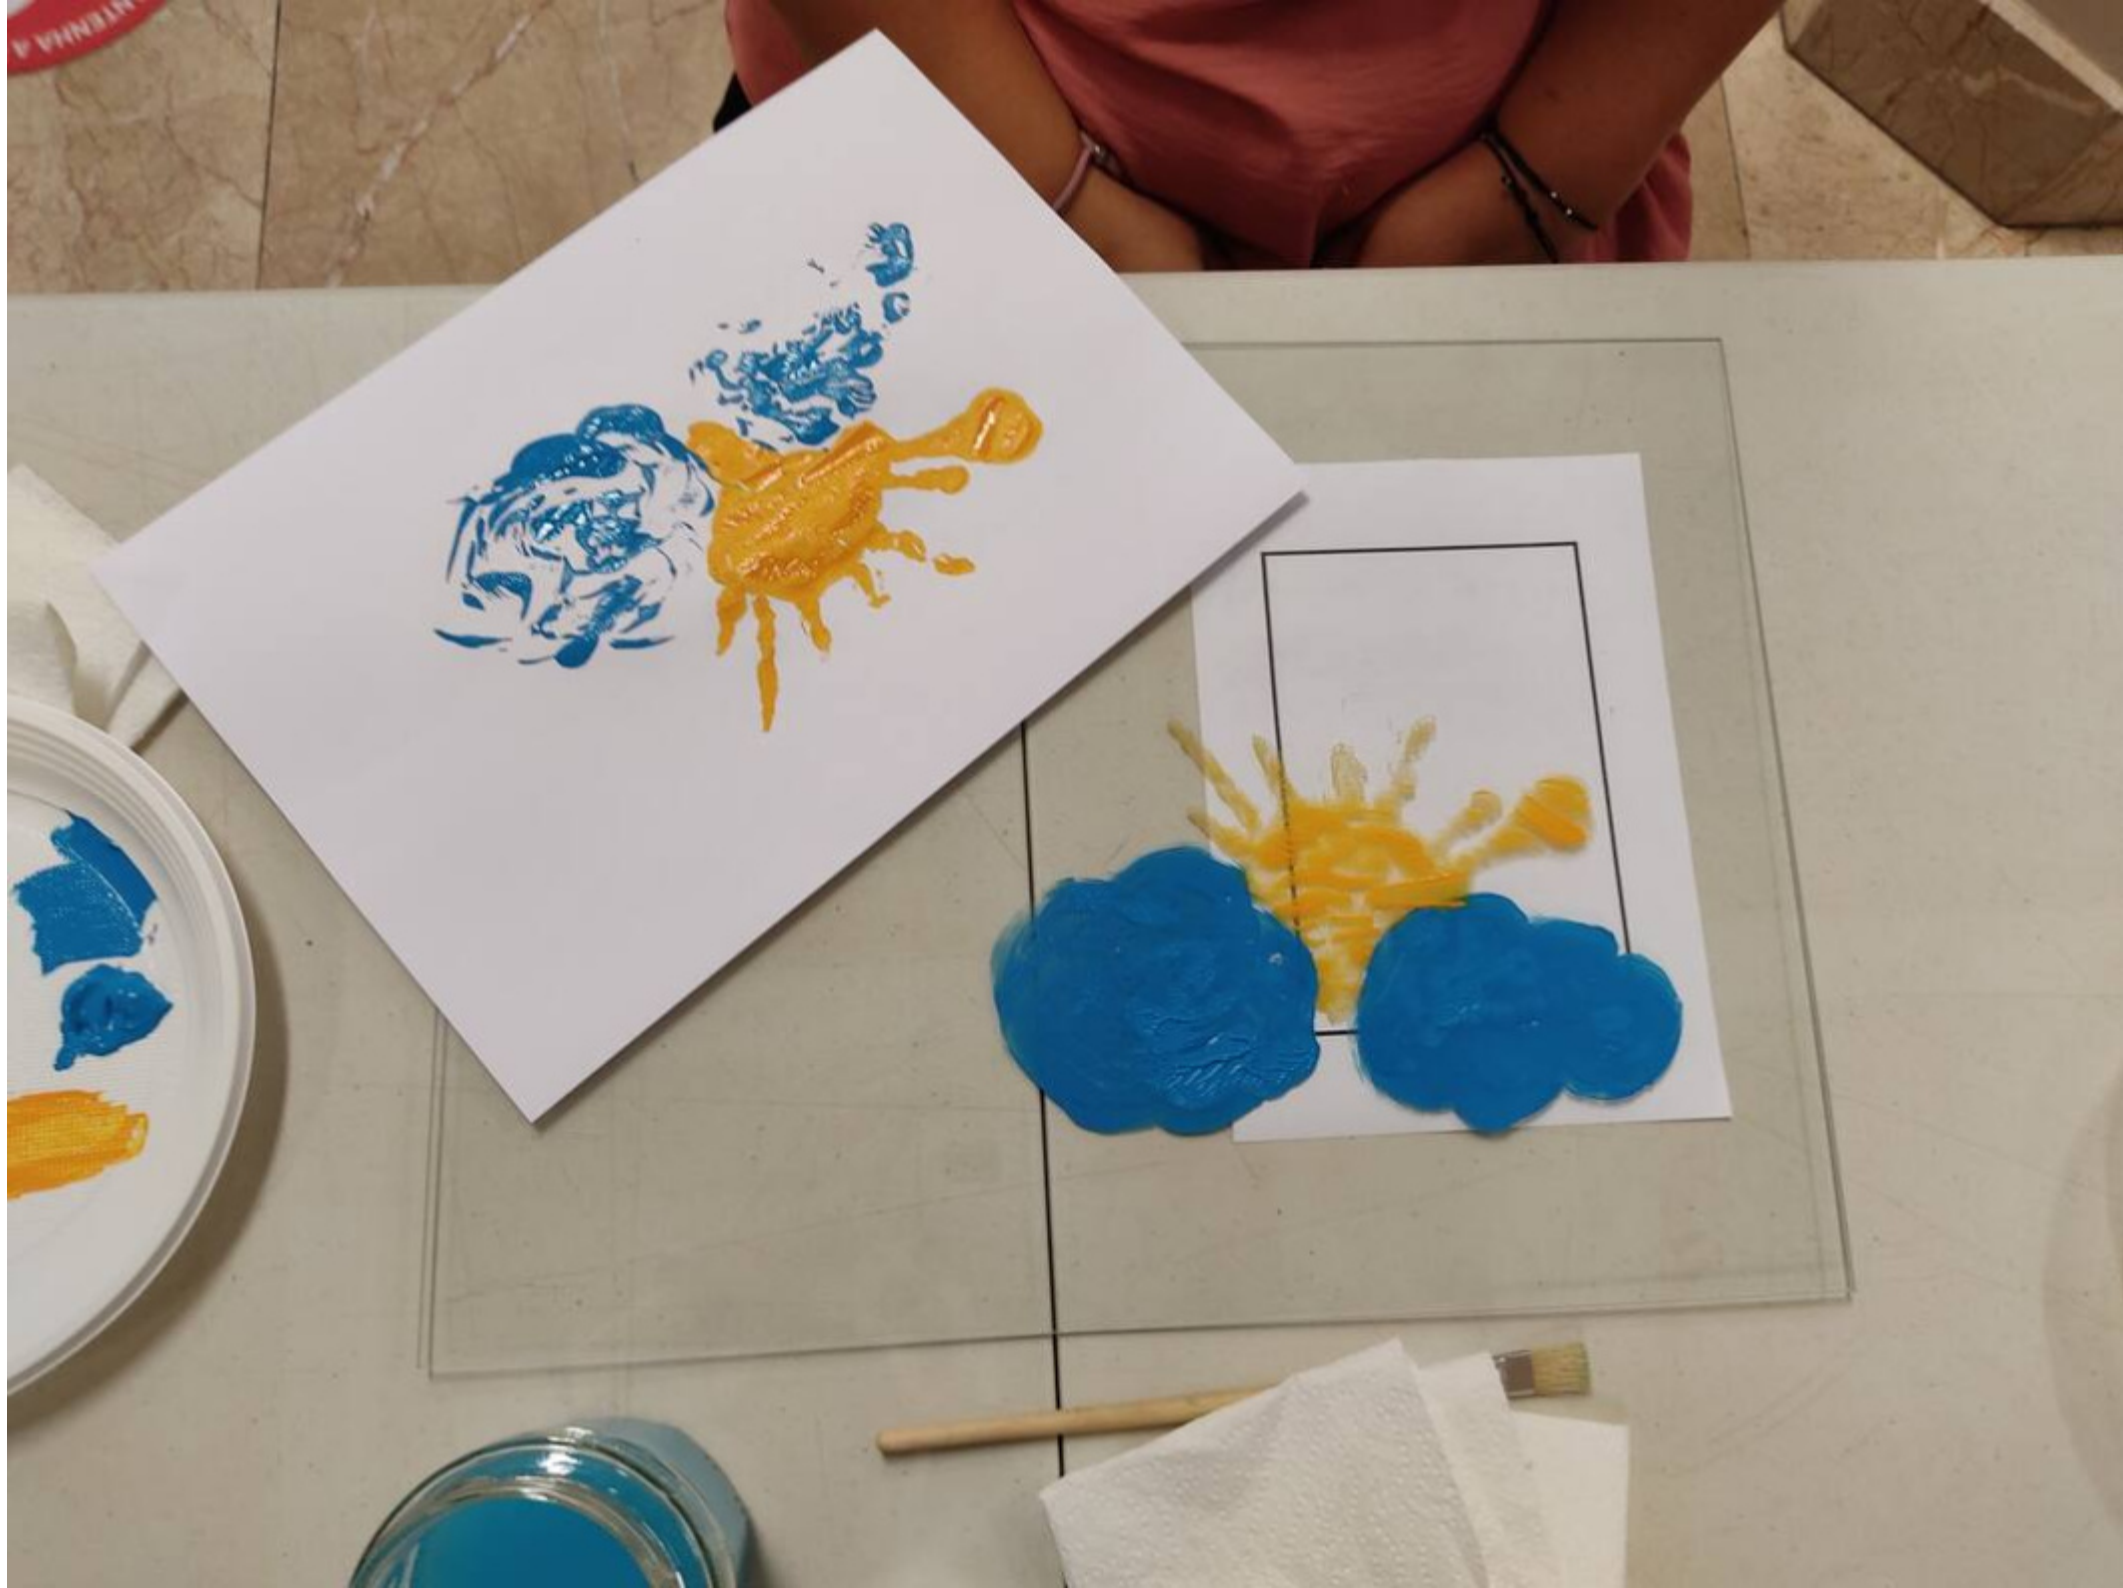

The proposal of this workshop involves the execution of two exercises, one where the result of a monotypic print will be tested on the face of the support and a second on the back where the entire graphic image is idealized including data for sending the work by mail.

Artistic objects will be created with the purpose of being sent to international open calls, exhibitions and international artists.

Tools and supplies will be made available to the trainees. However, it is advisable to bring your own tools and supplies in order to increase productivity.

The tools and supplies to be explored at the workshop are:

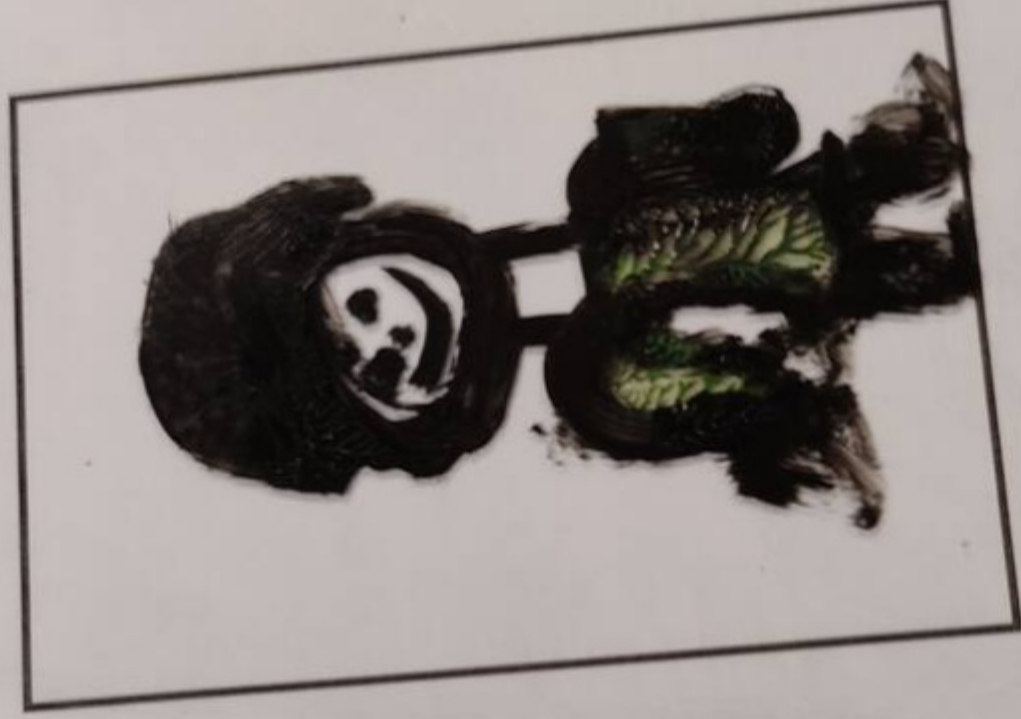

- . scissors, scalpels and exacto knives
- . miscellaneous papers and cartons
- . glues and self-adhesive tapes
- . magazines, newspapers and books to cut from
- . markers, pens and pencils
